The GRAMMY Foundation was established in 1989 to cultivate the understanding, appreciation and advancement of the contribution of recorded music to American culture — from the artistic and technical legends of the past to the still unimagined musical breakthroughs of future generations of music professionals. The Foundation accomplishes this mission through programs and activities that engage the music industry and cultural community as well as the general public.

ONE is a campaigning and advocacy organization of 3.5 million people taking action to end extreme poverty and preventable disease, particularly in Africa... because the facts show extreme poverty has already been cut in half and can be virtually eliminated by 2030. Cofounded by Bono and strictly nonpartisan, ONE raises public awareness and work with political leaders to combat AIDS and preventable diseases, increase investments in agriculture and nutrition, and demand greater transparency in poverty-fighting programs. ONE also works closely with African activists and policymakers as they fight corruption, promote poverty-fighting priorities, monitor the use of aid, and help build civil society and free enterprise. ONE is funded almost entirely by a handful of philanthropists and foundations.
